

# Milkbox Malta - Graphic Designer

---

**Job Title**

Graphic Designer

**Reports to**

Product Director

**Location**

Qormi, Malta

**Job Overview**

The team at Milkbox Malta is growing and we are looking for a Graphic Designer who has worked in an agile environment to join us! We are part of a world-leading performance marketing group, developing an all-in-one marketing business application.

**Job Description**

Your role will be to develop a beautiful and engaging exterior for the Milkbox brand, and to work within a marketing team to increase the product's visibility in the marketplace. You should have a passion for design, a solid understanding of the latest trends, and experience designing visual content that keeps your target audience engaged. By taking ownership of Milkbox's visual identity and building a recognizable and consistent design style, you will help us to get the world talking about Milkbox.

The right candidate for Milkbox is tech-savvy, creative and adaptable. A good eye for design is essential, but you should also be excited by technology, business and marketing best practises

**Who you are**

- Excellent visualization and communication skills
- Ability to work collaboratively within cross-functional teams as well as work independently when required
- Have a creative flair and a strong ability to translate requirements into design
- Know how to use creative software

# Milkbox Malta - Graphic Designer

## What you'll be doing

- Working with the marketing team to create creative visuals
- Translate product team ideas into precise, clear, elegant and functional high-fidelity prototypes
- Own and protect the brand identity and maintain its integrity through time
- Create wireframes, UIs and refine the user experiences with attention to details
- Effectively communicate design ideas to the development team by delivering mockups, prototypes, visual assets and documentation required for proper implementation
- Contribute to evolving standards/best practices and maintain design guidelines for future product developments
- Actively respond to usability testing and consumer feedback
- Keep in touch with design trends and industry standards

## What you have

- 2+ years interactive design experience required in Branding, UX, usability engineering, or related field, with experience in designing for web and mobile applications
- A portfolio of projects you worked on that demonstrates your ability to design useful and usable user interfaces (i.e. Apps currently on the app store)
- Experience with tools such as **Sketch, Figma, Adobe Suite, etc.**
- Education in visual design, industrial design, interaction design or equivalent work experience
- Enthusiastic understanding of iOS, Android and Web cues, and design standards
- Great attention to detail
- Experience with Agile methodology development

## Our offer to you

- Competitive Salary
- Quarterly performance-based bonuses
- Finish your week at 1 pm on Fridays
- Possibility to travel: Job opportunities in our other international offices
